Located in Watsonville, California and founded in 1980, SUPERIOR FOODS INTERNATIONAL is a global manufacturer, supplier and distributor of frozen food products. SUPERIOR FOODS INTERNATIONAL plays a leading role in the frozen food industry by integrating global manufacturing and distribution resources with rigorous quality assurance and food safety programs. We are proud to join our partners SFI ASIA and FOODIMPEX to bring truly global solutions to the frozen food industry.

The company is responsible for all sales and marketing for a consortium of state-of-the-art freezing facilities throughout the world. Through strategic partnerships with these modern facilities and together with its service oriented, multi-lingual staff, Superior Foods International LLC has become one of the leading exporters of frozen fruits and vegetables to and from the United States, Europe, Asia, Mexico, and Central and South America.

Superior Foods' Quality Assurance and Food Safety programs encompass a combination of rigorous and systematic procedures with continuous improvement in product and process standards, professional personnel, compliance programs, teamwork and communication throughout the supply chain. This comprehensive process allows us to guarantee that all our products enjoy the consistency, integrity, quality and safety required by the most demanding and discerning customer base in our industry.

**SUPERIOR QUALITY**

Superior Foods is committed to a forward looking philosophy, staying ahead of industry developments and delivering new and innovative products as a complement to our broad line of vegetables and fruits. We consistently remain in the forefront of frozen foods global manufacturing by ensuring that our customers are abreast of the industry's developments.

**INNOVATION**

Our strength is gained by delivering globally manufactured products to a broad base of retail, industrial and foodservice markets worldwide. This diversification allows us to be the most cost effective and consistent supplier of a full line of frozen vegetables and fruits.

**STRENGTH THROUGH DIVERSIFICATION**

Our ability to manufacture from globally diverse regions enables us to take advantage of staggered growing seasons to create the most efficient and reliable supply of products. This also allows us to minimize storage and associated expenses, which results in improved quality and savings which we are able to pass on to our customers.

**GLOBAL DISTRIBUTION**
